1 June 2001

Dear Sir / Madam

Global Quest Communications Limited (GQC) registered under the laws of the United Kingdom would like to request stream lining of its application for 214 licensing.

GQC certifies that it is not affiliated with any foreign or US based operator that would allow it special concessions for the termination of international voice traffic. GQC wishes to build and purchase infrastructure in order to provide low cost international termination to US consumers in the soonest possible time frame.

GQC activities will benefit the US economy in direct investment and expenditure, employment of US citizens to operate and manage GQC facilities, and to reduce the cost of international switched voice termination for US customers.

Please do not hesitate to contact us in the event that you require any further information..

Yours Sincerely

Robert Minchin  
Director Business Development
